

BlueDiamond®

condensate removal pumps

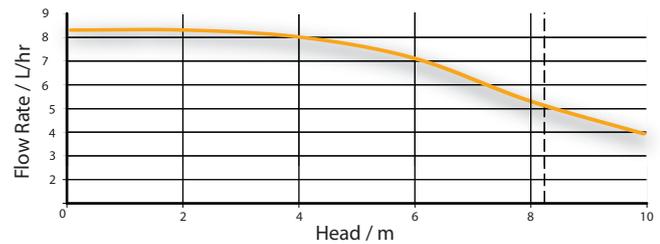

MiniBlue®

Running either wet or dry, the MiniBlue® is whisper quiet whilst reliably removing condensate and debris. Inherently reliable whilst self priming it gives peristaltic performance at the price of a piston pump. The MiniBlue® is small enough to quickly fit or retro fit into any existing installation, saving both time and money.

Performance

Max flow	Max head	Max suction lift
8 litres/hour	8 metres	5 metres

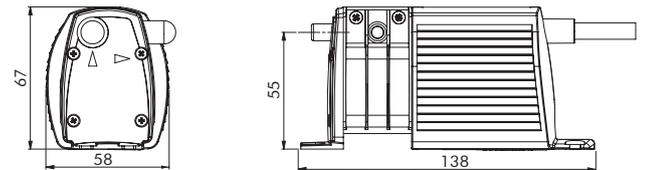

Sensing Options

MiniBlue® pump available with one of the following options:

Temperature sensor	CR Plug
X87-504	X87-500
	

Dimensions (mm)

BlueDiamond® technology

Not only is the MiniBlue® backed by a three year warranty, it also uses the BlueDiamond® patented rotary diaphragm technology. The condensate is drawn into the pump by vacuum and mechanically driven within a re-inforced elastomer diaphragm to the outlet under pressure. This system even tolerates suspended solids and light slurries whilst happily running dry.

Installation Options

The MiniBlue® can be mounted in any orientation up to 5m away from the air conditioning unit.
