

BlueDiamond®

condensate removal pumps

MaxiBlue®

Designed for high humidity environments and with high performance, the MaxiBlue® is ideally suited for mid range air conditioning systems. Its exceptional reliability is backed by a multi year warranty and with class leading performance/suction lift, the MaxiBlue® is ideal for installations in environments that are both demanding and expensive to access for maintenance.

Performance

Max flow	Max head	Max suction lift
14 litres/hour	8 metres	8 metres

Sensing Options

MaxiBlue® pump available with one of the following options:

Reservoir sensor	Temperature sensor	Drainstik®
C21-013	S12-002	S12-004
		

Dimensions (mm)

BlueDiamond® technology

Not only is the MaxiBlue® backed by a three year warranty, it also uses the BlueDiamond® patented rotary diaphragm technology. The condensate is drawn into the pump by vacuum and mechanically driven within a re-inforced elastomer diaphragm to the outlet under pressure. This system even tolerates suspended solids and light slurries whilst happily running dry.

Installation Options

The MaxiBlue® can be mounted in any orientation up to 5m away from the air conditioning unit.
