## Technical Bulletin

TOSHIBA ESTIA

Graz, 30<sup>th</sup> October 2018

**SUBJECT: upgraded functionalities for the Remote Control of the ESTIA series 5**

Dear TOSHIBA Partner,

we are pleased to announce an upgrade for the Remote Controller of the ESTIA Series 5  
from July 2018 production.

### Upgraded Functionalities:

- **Additional 6 languages (in result, total 12 languages are now available). Dutch, Finnish, Czech, Hungarian, Croatian and Slovenian are added.**
- Summer time setting is now available in the "Initial Setting" menu. Please, note that the following scheduled functions are not changed when they set summer time: Schedule timer, Night setback, Silent mode and Anti bacteria
- 12-hour display format: 12-hour display format is now also available in addition to 24-hours display format in the "Initial Setting" menu. (Example: 12-hour format "6:00PM" / 24-hour format "18:00")

### Implementation identification:
